THE SOLUTION SYSTEM  
INQUE Group

# INQUE Group

INQUE was born to provide Kitchen hardware solutions in Mumbai, India. Today, we are also providers of shutters and cabinetry. For us, providing the best customer service, customer experience and company culture is of utmost importance.

INQUE is a homegrown brand with it's established, experienced and esteemed roots founded by a family that created ENOX.

A firm foundation for Pooja Hardware Pvt. Ltd. was laid down in the year 2007 with the brand ENOX with its product portfolio comprising Glass hardware, sliding solutions, door control, furniture fittings and kitchen hardware.

With time being grateful, our hard work helped us reach a commendable milestone of sales volume which progressively increased year on year.

In the year 2014, A Swedish multinational company named ASSA ABLOY acquired ENOX,with the branch of business that deals in locks and hardware. At that time,We were the market leader employing 220 passionate employees in our team. Since, the Kitchen Hardware business was not acquired from our product portfolio, we decided to continue our Kitchen Hardware under the INQUE brand with Pooja Hardware.

To take INQUE to a different height, we have started a new company named Inque Solution LLP. Inque Group of companies have acquired multiple brands, out of which AVEO Hardware India Pvt. Ltd. is one of its prized possessions.

Successful companies don't just happen. Success requires nurturing, years after year to assure that customer expectations are not only met, but are also exceeded.

## HISTORY

At AVEO, we trace our beginning back to 2008, the year Mr. Ashish Shah laid the base of our company in Mumbai, India. To introduce our founding member, Mr. Ashish Shah with a handful of experience in retail hardware stores, started a wholesale trading firm in Architectural Hardware. Later on, in the year 2015, he laid a firm foundation of AVEO HARDWARE under the brand name AVEO. Thereafter, equipped with his experience and expertise, in the year 2021, with an ambition to take AVEO to great heights, a marginal stake of Aveo Hardware was passed over to INQUE Group of Companies. With this acquisition was born the Aveo Hardware India Pvt. Ltd. , under the leadership of Mr. Ashish Shah, Mr. Divyesh Shah and Ms. Komal Shah falling under the INQUE group of companies

## WHAT WE DO

At Aveo Hardware India Pvt. Ltd., we intend to inspire the world by showing it's possible to deliver happiness to customers, employees, vendors, shareholders, and the community simultaneously in a long term and sustainable way by providing exceptional quality hardware.

AVEO product palette consists of Glass Hardware, Sliding solutions, Furniture fittings and Door automations.

We aim to make lives easier and convenient with our hardware being smart and functional at the same time. With their extensive experience in the Hardware industry, our founders timely understood the peculiarities of the market and its needs. Our Product palette is designed and drafted very meticulously to cater to a variety of requirements and choices. Our team is a bunch of passionate people who are updated with the international market and work hard to introduce the latest products in India.

## VISION

To be the synonym for Architectural Hardware in India and globally.

## MISSION

To make Aveo, a Hardware solution provider globally.

PVD (physical vapor deposition) coating, also known as thin-film coating is an acronym that's increasingly prevalent in metalwork-finishing parlance and is generally associated with scratch-resistance and coloring benefits.

## *But Why Pvd ?*

SUPERIOR WEAR RESISTANCE, SUPERIOR CORROSION RESISTANCE, SUPERIOR CHEMICAL RESISTANCE

You will appreciate your product more when it's harder and more wear & corrosion resistant.

But HOW?

The answer to this comes with the PVD coatings which gives significant result when applied in place of electroplating process.

To list few of the distinctive features, PVD:

- Allows for thin coatings (less than one micro-meter) and sharp edges.
- Is remarkably versatile in terms of the sectors and products where it can be used with its presence as a replacement for the most traditional painted and electroplated decorative-metalwork finishes. It's job when it comes to coating chrome-plated materials and stainless steel is noteworthy giving the surface type of the chosen material a distinguish look along with the colour of the finish which does not chip, tarnish or fade.
- Is more environment friendly than electroplating, as the process is free from any toxic chemical solutions to be disposed of at the end.
- Comes with assurance of superior wear resistance, corrosion resistance, chemical resistance, with low factor of friction and excellent adhesion. Along with this, is its commendable performance when it comes to brilliant decorative finish, high hardness, uniform coating simultaneously with low maintenance.
- reduce friction and provide a barrier against damage.
- Involves high cost along with the complex machines and skilled operators.

Whether the coating needs to be extremely thin, pure, durable or clean, PVD provides the solution.

 PVD Coating refers to a variety of thin film deposition techniques where a solid material is vaporized in a vacuum environment and deposited on substrates as a pure material or alloy composition coating eventually providing crucial performance attributes for the final product

Abbreviations - **GH** - Glass Height / **TH** - Total Height

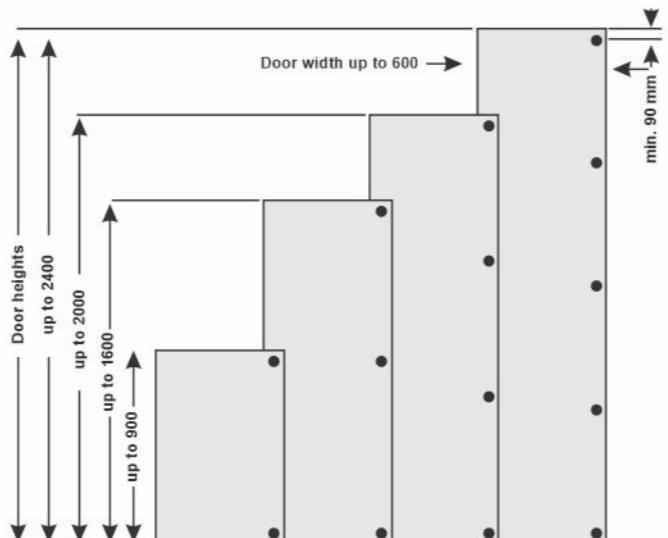

## Auto Hinges

The number of hinges needed for each door depends on the width of the door, the height of the door and the type of material the door is made of. It varies in particular practices. The hinge installation proposal listed on the right is only for your reference. Experiment is suggested in an uncertain situation.

If in doubt, it is advisable to produce a trial mounting or to increase the number of hinges.

For reasons of stability, distance X between the hinges must always be made as large as possible.

BREAKOUT SYSTEM

| Model                    | BREAKOUT SYSTEM                    |
|--------------------------|------------------------------------|
| Max Door Weight (Single) | 1 x 130kgs                         |
| Max Door Weight (Double) | 2 x 120kgs                         |
| Door Leaf weight         | 700 - 1300mm                       |
| Opening Speed            | 100 - 550mm/s (Adjustable)         |
| Closing Speed            | 100 - 550mm/s (Adjustable)         |
| Motor Details            | 24v 80W 2300rpm brushless DC motor |
| Holding Time             | 0-60seconds (Adjustable)           |
| Voltage                  | Ac90 - 240V 50Hz - 60Hz            |
| Operating Temperature    | -10°C ~ 70°C                       |

Product Code & MRP Available as Per Project Requirement

## PRODUCT OVERVIEW

Type tested sliding door system with swing out fittings designed for the use on escape routes

- Swinging out the leaves in escape direction with adjustable force up to 110N
- Single leaf and double leaves design
- with swing out panels
- with fixed side panels
- without side panels

### Function Details

|                     |   |                        |   |
|---------------------|---|------------------------|---|
| Automatic           | ● | Fire Alarm Terminal    | ● |
| Always Open         | ● | Access Keypad Terminal | ● |
| Partial open        | ● | Inter Lock Function    | ● |
| Full Lock           | ● | LED Display            | ● |
| One Way             | ● | Photocell              | ○ |
| Self-learning       | ● | UPS                    | ○ |
| Self-lock           | ● | Electronic Lock        | ○ |
| Error Message       | ● | OEM Service            | ● |
| Anti-clamp Function | ● | CE Certification       | ● |

● standard function ○ optional function

### CONFIGURATION

Configuration A double leaves with Breakout Panels

Configuration B Single leaf with breakout sidelight panels

Configuration C Single leaf with Fixed sidelight panels

## PRODUCT OVERVIEW

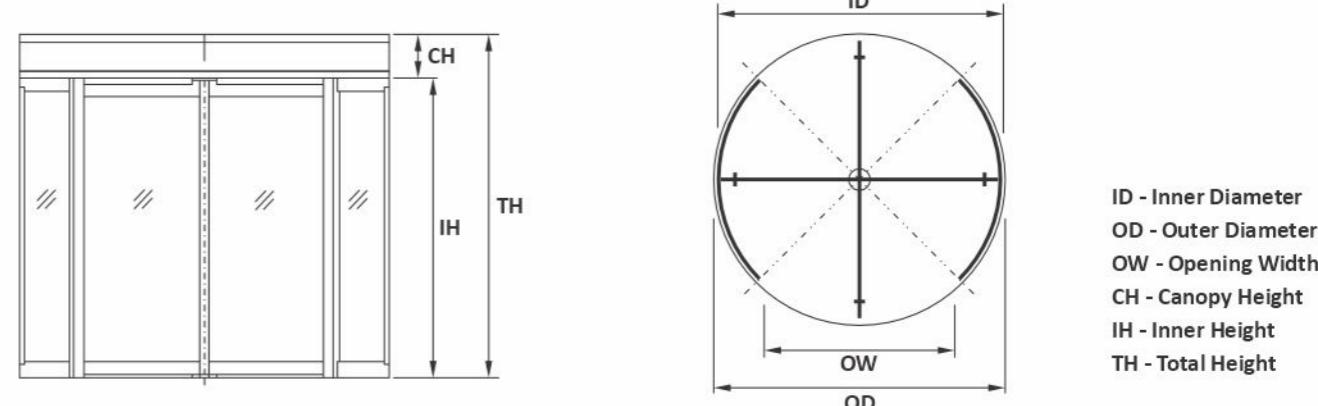

REVOLVING DOOR SYSTEM (3/4 LEAF)

| Model                                       | REVOLVING DOOR SYSTEM (3/4 LEAF) |
|---|----------------------------------|
| Power supply                                | 220VAC±10%,50HZ                  |
| Rated current                               | 12VAC,50HZ                       |
| Rated power                                 | 600W                             |
| Down lights                                 | 400W                             |
| High speed adjustment range(revolving door) | 1-4r.p.m.                        |
| Low speed adjustment range(revolving door)  | 0.5-1.5 r.p.m.                   |
| Ambient temperature                         | -30 - 45 degree                  |
| Max relative humidity                       | 90%.                             |
| Total weight                                | <1000Kg                          |
| Operating noise                             | <= 60db (A)                      |

## PRODUCT OVERVIEW

AVEO superior designs for revolving doors provide an imposing entrance to any building, while serving as an airlock as well, to minimize a building's heating and air conditioning losses, therefore maximizing energy savings.

|                |        |        |        |        |        |        |
|----------------|--------|--------|--------|--------|--------|--------|
| Inner Dia(D)   | 1800mm | 2100mm | 2400mm | 2700mm | 3000mm | 3600mm |
| Outer Dia (DT) | 1880mm | 2180mm | 2480mm | 2780mm | 3080mm | 3680mm |
| Clear Height   | 2300mm | 2300mm | 2300mm | 2300mm | 2300mm | 2300mm |
| Canopy Height  | 300mm  | 300mm  | 300mm  | 300mm  | 300mm  | 300mm  |
| Total Height   | 2600mm | 2600mm | 2600mm | 2600mm | 2600mm | 2600mm |

Note : In addition to the standard dimensions, several other dimensions are available.

### SAFETY FUNCTIONS

- Special Load-Bearing Structure
- Vertical/horizontal safety switch
- Anti-squeeze
- Anti-strike
- Force-sensitive Control
- Torque Control
- Panic breakout system
- Handicap
- Night Security Door

### OPERATION FEATURES

- Continuous Working Mode
- Go/Stop Working Mode
- Remote Control Function

### INFORMATION :

- The technical presentation and dimension in illustration and drawing are non binding we reserve the right to make change to specifications at any time.
- We do not accept any responsibility for any errors which may occurs in the production of this catalogue all size in mm.
- The printed color indicating the surface finishes are not 100% true but do provide a useful guide .
- Picture may show design which are different to be the standard scope of delivery.
- Product prices are subject to change without prior notice.
- Routine cleaning is essential, especially in environments that have elevated levels of atmospheric corrosion. Company has mechanism warranty not for Red spot or Rust, Proper care for your stainless steel door hardware will result in many years of durable use.
- Water rusted Floor Spring has no warranty
